

FMF Cape Breton – Op LASER Update 28 May 2020

**Current Posture:
3C “Protect” - Minimum Manning**

Update Message

This week, HMCS VANCOUVER was undocked, which was a collaborative effort between stakeholders including FMFCB, Victoria Shipyard Limited (VSL), Queen’s Harbourmaster (QHM), ship’s staff and others. This was a big, complex evolution that successfully got VAN back over to VSL so that they can return the ship to us at the end of the summer in the best condition possible. Thanks to all who participated – it didn’t necessarily go smoothly for everybody, so thank you for your commitment.

On Monday, planning personnel will start onsite at FMFCB in full force to re-plan HMCS WININPEG’s paused Short Work Period and to plan a Defect Rectification Period for HMCS REGINA, as well as a Tiered Readiness Period trials program for HMCS SASKATOON. This will allow the larger Production and Engineering work force to hit the ground running on these critical projects on 15 Jun 20 (though a number of ‘critical path’ jobs have already been started). We look forward to getting back to work!

Work Priorities

- Support CAL, REG & BRN to facilitate their return to sea;
- Limited support to DND contractual requirements in VAN & OTT;
- Plan to prepare/support Op & Tech Schedules (WIN; REG; VIC; TEK); and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
