

FMF Cape Breton – Op LASER Update 22 June 2020

**Current Posture:
3B “Sustain”**

Update Message

Hopefully everyone enjoyed the weekend, the longest day of the year and the start of summer. Welcome to the “Red” Team, some of whom started onsite this morning (with the rest to start on Wednesday). We have lots to do on our four priority platforms – our objectives are to prepare: WIN for RIMPAC and a deployment; VIC for sea as soon as possible; REG to join WIN at RIMPAC; and TEK to sail for sea acceptance trials (SATs) in early September.

Public Health Measures: These measures are not natural to us (e.g. keeping 2m distance from others) and sometimes unpleasant (e.g. wearing a mask for most of the day). Please continue to make every effort to follow these measures consistently. If someone points out that you have overlooked a PHM, take it as a constructive comment and, likewise, kindly point it out if someone else has overlooked a PHM. Eventually, this will become second-nature to us all, and we need to work together to get to that point – for the safety of us, our families and our community.

Work Priorities

- Execute work periods to support Op Sched (WIN, VIC, REG, TEK);
- Targeted support to DND contractual requirements in VAN & OTT; and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
