

FMF Cape Breton – Op LASER Update 16 February 2021

Current Posture: 3A “Surge”

Update Message

FMFCB has had an eventful couple of weeks since the last update, having had our first confirmed covid cases. We acted quickly to assess the risk and, after determining the potential extent of close contacts, the CO directed FMFCB into the ‘3C Protect’ posture. We remained in this posture until the risk could be brought back to an acceptable level, with FMFCB returning to the ‘3A Surge’ posture yesterday. Thanks to everyone involved in the response – those involved acted quickly and professionally to keep us safe. Our thoughts are with the employees and family members now dealing with covid – we wish you all a speedy recovery. And we should also take the opportunity to re-emphasize that everyone must continue to take all PHMs seriously, particularly the wearing of masks and maintaining physical distance, and do not be afraid to kindly remind others around you to follow these measures – we all forget sometimes.

And let’s not lose focus on why we have come back to work – we have lots to do, getting VIC back to sea, continuing VAN and WIN work periods, and supporting ships at sea. Keep up the great work!

Work Priorities

- Support operational platforms: VIC, CAL, REG, MCDVs;
- Execute work periods to support Op Sched: VAN EWP2, WIN SWP;
- Support to DND contractual requirements in OTT, COR, and CHI; and
- Support other safety/urgent requirements as directed.

*Due to limited capacity, please do not use DVPNI unless specifically authorized.
Report your status to your supervisor daily by 09h00.*
